10. Shri M. K. Adhikari—Managing Director.

Report of the Board of Directors of the West Bengal Financial Corporation, for the year ended the 31st March 1962.

The Board of Directors present herewith the accounts for the year ended the 31st March 1962 together with their report on the working of the Corporation during the year.

			Rs.
After payment of expenses of administration and other charges (including depreciation and interest on bonds issued) the net profit of the Corporation for the year comes to.			6,94,005·27
Out of this amount, the following appropriations have been made :—			
(a) Provision for income-tax		2,73,308·84	
(b) Transfer to Reserve Fund in terms of section 35 of the State Financial Corporations Act, 1951 :—			
Special Reserve for purpose of section 10(2) (XIV-a) of the Indian Income-tax Act, 1922	Rs. 69,400·00		
Surplus	Rs. 1,296·43	70,696·43	3,44,005·27
Leaving available for distribution ..		..	3,50,000·00

2. The State Government, in pursuance of section 6 of the State Financial Corporations Act, 1951, have guaranteed a minimum divident at 3½ per cent. per annum on the shares of the Corporation. The amount required to pay the dividend is Rs. 3½ lacs. It will thus be seen that the amount left available for distribution as shown above is the amount required to pay the dividend and we have the pleasure to inform you that, for the first time since its inception in 1954, the Corporation has been able to earn profits on its working during a year to pay the dividend on its shares without receiving any subvention from the State Government. But for the recent increase in the rate of corporate tax applicable to the Corporation from 45 per cent. to 50 per cent, larger funds would have been transferred to Reserve Fund.

3. The total subvention so far received by the Corporation from the State Government for paying the guaranteed dividend on its shares amounts to Rs. 11,86,660, against which the total funds held in Reserve Fund including the proposed contribution thereto made for the year under review amount to Rs. 2,54,196.

4. With the rising tempo of industrialisation of the country, the State Financial Corporations Act, 1951, has recently been amended to enlarge our field of operation and raising the limit of the loan granted by the State Financial Corporations to a single industrial concern from Rs. 10 lacs to Rs. 20 lacs in the case of public limited companies and co-operative societies. At the present rate of its progress, it is expected that the Corporation would pay a larger part in financing industries in future and its profits would be higher.

5. The Corporation has been making a steady progress as will be evidenced from the following statement of profits earned and subventions received from the State Government from year to year since its inception:—

	Profit.	Subvention.
	Rs.	Rs.
1954-55	1,23,757	2,13,567
1955-56	2,51,702	2,53,551
1956-57	2,93,965	2,19,035
1957-58	4,15,232	1,64,268
1958-59	4,78,030	1,88,719
1959-60	5,45,399	1,10,000
1960-61	6,04,378	37,520
1961-62	6,94,005	..

6. Much headway has been made in giving city to the activities of the Corporation a Advisory Committee has recently been forme North Bengal to develop contacts in that area. Corporation sanctioned loans to the tu Rs. 1,24,96,500 during the year under review ar disbursements amounted to Rs. 75,67,500 wh the highest amount disbursed in a year sin inception.

7. A table showing the gross income earn the Corporation from year to year during th eight years and the percentage which the ad trative expenses for these years bore to such income is given below:—

	Gross Income.	Percen
	Rs.	
1954-55	2,32,841	4
1955-56	3,45,173	2
1956-57	4,19,503	2
1957-58	5,28,037	2
1958-59	8,16,334	1
1959-60	9,24,301	1
1960-61	11,69,884	9
1961-62	13,45,643	10

8. The Corporation had issued bonds in Jan 1962 for Rs. 50 lacs carrying interest at 4½ per and maturing in 1974. The Corporation's wor funds now comprise Rs. 1 crore in paid-up ca and Rs. 1½ crores obtained by the issue of bo making Rs. 2½ crores in all against which a sum Rs. 2,13,00,000 was outstanding on the date of balance sheet in the form of loans granted.

9. The commitments of the Corporation in pect of loans sanctioned since its inception up to 31st March 1962 were as follows:—

	Rs.	Rs.
Total loans sanctioned		4,16,89,000
Amount disbursed	2,73,54,500	
Loans declined or not made available for one reason or another.	60,15,500	3,33,70,000
Amount to be disbursed ..		83,19,000
Cash in hand and with banks		43,50,432

10. It will be seen from the above that the funds ailable to the Corporation are not sufficient to et the disbursements to be made on its outstand- commitments in addition to which there will be w loans to be granted in future. As in the past, e Corporation would raise additional funds as and hen required by issuing bonds and, by the recent nendment to the State Financial Corporations Act, 51, the Corporation has been enabled to obtain nds by availing of the refinance facilities provided the Refinance Corporation for Industry Ltd.

11. Appendices A, B and C are enclosed giving dustrywise classifications of the advances granted the Corporation.

12. The Corporation's lending rate was increased ring the year from 6½ per cent to 7 per cent per num for all loans sanctioned on and from the 1st nuary 1962, subject to a rebate of 25 nP. per cent. r punctual payments. PLANNING AND PROGRESS

The year under review constitutes the third of the Second Five-Year Plan period. The follo gives an outline of the progress in the various schemes under implementation as also o schemes in the process of planning and execu The proposed programme of work to be take during the year following is also appended at close of this chapter.

The execution of the undernoted Plan sche as per programme drawn up last year, was envis during the year under review with an anticip allotment of Rs. 88.73 lakhs under the Second F Year Plan.

Schemes under the Plan framework for execu during the third year of the Second Five-Year P

But the fund available for the Plan schemes during the year being limited to Rs. 36.36 lakhs only, the above work programme had to be curtailed in order to keep within the allotted sum.

Progress was maintained in the execution of the following schemes sponsored by the Relief and Rehabilitation Department for electrification of a number of mills, factories and rural areas with a view to opening up possibilities of rehabilitating the displaced and unemployed persons in the areas:

Names of schemes.	Estimated cost Rs. (in lakhs)	Progress during 1958-59	Total progress.

Jaldhaka Hydro-Electric Project

During the year under review the detailed survey of the basin and geological explorations by core drilling and geophysical methods were completed and detailed specification drawings were prepared based on the data thus collected.

Preparation of the detailed project report was completed in September 1958 and was submitted to the Planning Commission for approval. The Planning Commission accepted the scheme as presented in the project report without any modification.

Subsequently, in December 1958 a conference was held in Delhi amongst the representatives of the Governments of Bhutan and India, the Planning Commission and the West Bengal State Electricity Board to consider the terms and conditions under which the Bhutan Government will allow the construction of the left abutment of the diversion weir falling in Bhutan and also the utilisation for generation of power of the water of the river Jaldhaka, 70 per cent. of whose catchment area lies in Bhutan.

This conference was successful and the representatives of the Government of Bhutan agreed to the terms as finalised in the conference.

The scheme as now sanctioned comprises briefly of the following structures:

(a) **Diversion weir:** This is a composite structure of 273 ft. length at top and of 64 ft. height above the average river-bed. It has a central spillway 118 ft. long fitted with 3 numbers of 30 ft. × 30 ft. crest gates.

(b) **Water conductor system:** This comprises 300 ft. of R. C. C. duct, 2,500 ft. of open channel, and 12,250 ft. of tunnel. The inside diameter of the tunnel is 10 ft. and the section is of horse-shoe type.

(c) **Surge chamber:** This is circular in section of 24 ft. inside diameter. The total height of the surge chamber is 220 ft. of which 50 ft. stands up above the ground level.

(d) **Pressure tunnels:** Initially there are two 5 ft. 6 in. in internal diameter steel lined pressure tunnels leading the water from the surge chamber. Ultimately two more pressure tunnels of the same dimensions will be installed.

(e) **Penstocks:** These are 5 ft. 6 in. in internal diameter steel pipes connecting the pressure tunnels to the turbines. Initially two of these will be installed but ultimately there will be four penstocks similar in dimensions.

(f) **Power House:** This is a reinforced c concerte structure with walls of masonry. Initially its internal dime will be 33 ft. wide and 80 ft. long to l two units of 9,000 kW each; but ultin the length will be increased to 135 house four units of 9,000 kW each. switch yard will be located adjacent t power house.

(g) **Tail-race channel:** This is a short chan 140 ft. length, the width varying 100 ft. near the draft tube to only towards the end.

The scheme as now finalised will cost Rs. crores for the initial 18,000 kW and Rs. 5.12 c for the ultimate 36,000 kW to be installed, incl the cost of Rs. 1.46 crores for the transmission and substations covering an area of approxim 2,000 square miles in North Bengal.

During the year under review, preliminary w like construction of temporary and perma quarters for the staff and other sheds, r bridges, etc., made considerable progress.

Construction of the tunnel, surge chamber the pressure tunnels is scheduled to start tow the end of the year 1959.

Survey and Investigation

During the year under review the detailed (tour Survey of the following Hydro-Electric Sche were completed:

(1) Balasun
(2) Mongpoo
(3) Little Ranjit
(4) Jaldhaka Second Stage.

Of the four schemes as mentioned above, detai project reports, specification drawings, and estima is due for preparation in 1959-60, for all exc Balasun. Balasun has been assigned lower prio as the cost of generation per kW for this scheme rather on the high side and also because of shortage of funds with the State Governm available for hydro-electric development during Third Five-Year Plan period.

Bijanbari-Pulbazar Hydro-electric Scheme

The Scheme comprises the following:

(*a*) A small diversion weir across the stre Laring Khola, in Darjeeling district, divert the water of the stream into flume.

(*b*) A 2 ft.×2 ft. rectangular galvanised s flume of 5,800 ft. length on the right b of the stream.

(*c*) A R. C. C. forebay on top of the ridge o Bijanbari Bazar.

(*d*) A 10-inch diameter steel penstock of 3,400 length connecting the forebay to t turbine.

(e) A small power house to accommodate one horizontal Pelton wheel impulse turbine of 500 B.H.P. capacity coupled to a 375kVA 360/400 volts, 3 phase, 50 cycles generator. The switch board will also be located inside the power house. The power house is located on the left bank of the river Little Ranjit about 200 ft. above the water line and about half a mile upstream of the confluence of Laring Khola with Little Ranjit. The water from the turbine will be laid into a small tailrace channel which connects a Jhora nearby.

(f) 400/230 volts substations and distribution lines at Bijanbari an Pulbazar.

(g) A single circuit 6.6 kV transmission line from the power station to Darjeeling town.

During the year under review, all surveys necessary for the construction of the scheme were completed and preparation of detailed construction drawings and specifications taken in hand. Acquisition of land and construction of staff quarters were in progress. The scheme is scheduled to be completed in June 1960.

Schemes to be financed by the Government of India from funds allocated to the railways

Supply of power for Railway track electrification: A brief outline of this scheme was given in the last annual report. The work mainly consists of drawing 132 kV transmission lines for feeding the several supply points on the eastern side of the river Bhagirathi and construction of substations at the supply points detailed below for supply of power to the railways to the extent of 60 to 65 MW:

	Name of place	Track section	Target dates of power supply	Source of supply
1.	Purulia	Asansol/Rourkella	August 1960	From DVC's proposed 132 substation at Purulia.
2.	Kharagpur	Kharagpur/Tatanagar	April 1961	From DVC's substation at Kharagpur.
3.	Bandel	Howrah/Burdwan	April 1962	By constructing 132 kV transmission lines to the place from DVC's Belmuri substation.
4.	Shamnagar	Sealdah/Ranaghat	April 1962	
5.	Ranaghat	Sealdah/Ranaghat	April 1962	
6.	Habra	Sealdah/Bongaon	April 1962	
7.	Sonarpur	Sealdah/Diamond Harbour	April 1962	By drawing 132 kV transmission line from DVC's Howrah substation.
8.	Kolaghat	Howrah/Kharagpur	June 1962	From DVC's proposed substation at Kolaghat.

Supply to the railway will be single phase, 25 kV, cycles and the work involved in the project nsists of—

(1) 90 miles of 132 kV transmission lines: One double circuit transmission line will be drawn from DVC's 132 kV substation of Belmuri for supply to Bandel, Shamnagar, Ranaghat and Habra. This transmission line will cross river Hooghly near Bansberia with a span of 2,000 ft. This transmission line will terminate at a switching station at Dharampur (near Kalyani) for teeing off the lines to Ranaghat to the north, Shamnagar to the south and Habra to the West. The line between Dharampur switching station to Ranaghat will be for the present double circuit single phase, whereas the line to Shamnagar and Habra has been designed for double circuit 3-phase in order to provide for 3-phase supply to Board's industrial consumers in addition to single phase supply to railway.

The other part consists of receiving power from DVC's substation at Howrah for supply to Sonarpur. This line will consist of partly 132 kV cables and partly 132 kV overhead lines. 132 kV cables will be single core and will be laid from DVC's Howrah substation up to a switching station near Garden Reach through the tunnel of Messrs. C. E. S. C. Ltd., under river Hooghly. At this switching station 132 kV cables will be connected with the 132 kV transmission lines. This part of the transmission lines has been designed for double circuit 3-phase up to Behala and thereafter double circuit single phase up to Sonarpur. At Behala provision has been kept for 3-phase supply to Board's industrial consumers.

(2) 8 Nos. of 132/25 kV substations for single phase supply to railway with 2 Nos. of switching station at Dharampur (near Kalyani) and Behala. During the year under review about 50 miles of route survey of transmission line was completed and the following tenders were called for by the Department:

(*i*) Fabrication of towers and erection of the 90 miles of transmission line.

(*ii*) Supply and laying of 3½ route miles of 132 kV cable.

(*iii*) Station battery and chargers.

(*iv*) Low Tension A.C. & D.C. panels.

Tenders were called jointly with other supply authorities for the following equipments:

(1) 132 kV and 25 kV switchgear.

(2) Control panel.

(3) 132 kV line insulators.

(4) 132 kV and 25 kV lightning arrestors.

(5) 132 kV/25 kV single phase transformers.

FINANCE, ACCOUNTS AND AUDIT

The revenue earnings of the Board are increasing steadily year to year which is evident from the ulars indicated below:

als—

	Rs. (in lakhs)
1955-56 (from 1-5-55 to 31-3-56)	31·62
1956-57	52·65
1957-58	82·93
1958-59	111·90

During 1958-59 the revenue earnings of the Board were sufficient to cover the operating, maintenance and management expenses, the depreciation charges in full and a portion of interest charges also.

The revenue earnings of the Board could be increased substantially if more funds were available for normal extension work. No allotment was available for 1958-59 for normal extension work though provision was made in the original budget.

The Board proposed to float a loan from market to the extent of Rs. 2 crores during 1 in order to purchase some private undertaki well as for normal extension work with a v increasing the revenue earnings of the Board. proposal is still under the consideration of the Government.

The working results for the year 1958-59, on cash basis, are given below:

	Rs. (in lakhs)	
Deduct—Interest on loan	28·79	
Less—Interest capitalised	4·98	23·81
Net Deficit ..		—17·88

The deficit is mainly due to the incidence of interest charges on the cumulative loan drawn fro the State Government from time to time for capital works.

The total amount of fees, salaries and allowances actually drawn by the members, officers and staff the Board during 1958-59 are given below:

	Rs.
(*i*) Members remunerations, fees nand allowances	34,896

(*iii*) Pay of Establishment (Administration and Operation)	15,78,204
(*iv*) Allowances and honoraria (officers and establishment)	12,64,886
	32,85,794

Out of the total of Rs. 32,85,794 drawn during 1958-59 a sum of Rs. 1,95,835 has been capitalised being the salaries of some construction engineers whose salaries are initially paid from the head 'Administration' but subsequently adjusted to new constructions and agency works executed by them during the year.

During the year under review investigation was also carried out on 41 existing undertakings of the Board to ascertain the number of towns and villages electrified under the said undertakings. It may be mentioned that this investigation was being carried out for the last three years with a view to preparing a comprehensive report about the number of places electrified in West Bengal. This is as per directive of the Central Water and Power Commission. However, the investigation is not yet complete. The number of places electrified by the Board is 300.

Tariff

During the year under review there had been practically no major alteration in the existing tariff and no new tariff was introduced. Generation at Tamluk was stopped in April 1958 and the undertaking was connected to Howrah-Amta grid. Similarly, Jhargram was connected to Kharagpur-Midnapore grid in September 1958 after closing down generation at Jhargram. Consequently, respective grid rates were introduced in the above places and consumers were relieved to a great extent.

Undertakings taken over by Board

There had been no case of revocation of private license during the year under review.

Special concessional rates for small-scale and c industries

During 1958-59, 233 consumers were gr special concessional rates for small scale and c industries. Of course, 183 consumers were g supply from different grids while the remainin consumers were fed from our diesel stations.

Undertaking, generating station or main transmission line of which the Board has assumed control during the year.

Undertaking, generating station or main transmission line which the Board has acquired under the provisions of section 23 or section 37 of the Electricity (Supply) Act, 1948.

Licensees for whom Rating Committees were set up by the Board during the year under section 57 of the Electricity (Supply) Act, 1948.

Directions given to licensees being local authorities in respect of their undertakings under the provisions of section 58 of the Electricity (Supply) Act, 1948.

Inter-State agreement entered into with a contiguous State under the provisions of section 6 of the Electricity (Supply) Act, 1948.

No. 29/2/63-IT(A1), dated 25th April 1963, on the subject indicated above is circulated herewith for information and guidance of all drawing and disbursing officers under audit/payment of this office and all Treasury and Sub-Treasury Officers in West Bengal.

[Dy. G.M./46, dated 4/63. Bundle GM/I.T./11-1/Vol. II.]

D. SUBRAMONY IYER,

Dy. Accountant-General (T.A.D.),

Copy of the letter F. No. 29/2/63-IT(A.I.), dated 29th April 1963, from Shri G. R. Desai, I.R.S., Deputy Secretary to the Government of India, Ministry of Finance (Department of Revenue), to all State Governments.

SUBJECT: *Income-tax—Deduction from salaries during* 1963-64.

I am directed to invite a reference to this Ministry's letter F. No. 29/2/63.-IT(A.I), dated the 22nd March 1963, on the subject mentioned above.

2. The Finance Bill, 1963, has been passed by the Lok Sabha on 20th April 1963, without any changes in the rates of income-tax and super-tax and surcharges proposed therein in regard to income under the head "salaries" liable to deduction of tax at source. The Bill is now under consideration by the Rajya Sabha and, after

receiving the assent of the President, it is expected to be passed into law by the end of April 1963. The salaries disbursed hereafter will therefore be liable to deduction of tax at source in accordance with the rates specified in the Finance Bill, 1963, subject, of course, to adjustments for any short deductions for the earlier period during the financial year. You are, therefore, requested to deduct tax in accordance with the rates specified in the enclosed extracts of Part I and Part II of the First Schedule to the Finance Bill, 1963, from the salary bills drawn by you for disbursement hereafter, after making the necessary a adjustments for any short deductions for the earlier period. In this connection, the changes introduced by the Finance Bill, 1963, in so far as deduction of tax from salaries is concerned and the provision of the Compulsory Deposit Scheme Bill, 1963, having a bearing on the deduction of additional surcharge on income-tax are briefly explained in the following paragraph.

3. As stated in paragraph 2 of this Ministry's letter of even number, dated the 22nd March 1963, the rates of income-tax and super-tax continue to be the same as were applicable in respect of the financial year 1962-63. The rates of the existing surcharge for purposes of the Union and of the special surcharge on income-tax and super-tax also remain unaltered. The changes made are as follows:—

(i) The total income limit of Rs. 7,500 up to which the existing surcharge on income-tax was hitherto not leviable has been abolished. The surcharge will now be leviable on all incomes on which income-tax is payable, even where the income is below Rs. 7,500.

(ii) An additional surcharge on income-tax for purposes of the Union has been introduced. This surcharge will be calculated on the assessee's residual income, i.e., total income as reduced by the gross amount of income-tax and super-tax payable thereon. The gross amount of tax is the full amount of income-tax and super-tax chargeable on the total income before allowing any rebate on account of providend fund contributions or payment of life insurance premia, etc. The rates at which this surcharge will be leviable have been specified in the enclosed schedule. This surcharge will be deductable at source from the salary income.

It should be carefully noted that no rebate additional surcharge is admissible in respect provident fund contributions and payments of insurance premia or contributions to the Nati Defence Fund, etc.

Another important point to be noted in re to the additional surcharge is that there is a p sion in clause 4(4) of the Compulsory De Scheme Bill, 1963, which is now under consi tion of the Lok Sabha, for allowing a ce reduction in the amount of the additional surch deductible at source from the salary income, the employee makes a deposit under the Com sory Deposit Scheme Bill and satisfies the dis ing office of the fact of having made the dep The reduction admissible is of an amount e to 3 per cent. of the residual income falling in the first slab of Rs. 6,000 and 2 per cent. o residual income exceeding the aforesaid slab Rs. 6,000, provided that the employee deposit equivalent sum under the compulsory De Scheme. If the amount so deposited is sma the reduction in the additional surcharge will limited to that sum and if no deposit is made reduction will be admissible.

However, the compulsory deposit scheme has yet been finalised. It is expected to be final before the end of June 1963. Pending the in duction of the Scheme the employees will not able to make the required deposits. At the s time, if the full amount of the additional surcha is deducted from their salaries in the interven period, they may suffer from hardship. Normal all employees may be expected to make the depos voluntarily when the compulsory deposit sche comes into force, in order to avail themselves the reduction from the additional surcha Considering this position it has been decided t for the present, till the month of August 1963 (pay for which is due on 1st September 1963) t deduction of additional surcharge from salaries m be restricted to the net amount which would payable after reducing the full amount by a s equal to 3 per cent. of the residual income up Rs. 6,000 and 2 per cent. of the balance of residual income.

A further communication will follow when deposit scheme is brought into force.

4. The points mentioned in paragraph 3 of t Ministry's letter of even number, dated 22nd Ma 1963, should also be kept in view in making ded tion of tax at source from salaries during t current financial year.

Note explaining the Compulsory Deposit Schemes relating to income-tax payers and employees in receipt of annual salaries of Rs. 1,500 or above but who are not subject to income-tax received with the Government of India, Ministry of Finance (Department of Economic affairs) O.M. No. F3(b)-NS/63, dated 30th May 1963.

The deposits under the two Schemes will be accepted at all Head Post Offices and Departmental Sub Post Offices and all offices of the Reserve Bank of India and branches of the State Bank of India and its subsidiary banks other than those which are specifically excluded for this purpose. The depositors will be issued a separate pass book in each case and the amount in deposit, together with simple interest at 4 per cent. per annum, will be repaid five years after the end of the year in which the moneys were deposited. The interest will be free of income-tax. The Schemes provide for the declaration of nominees to whom payments will be made in the event of the death of the depositors without the production of succession certificates or other legal proof of title. The deposits are exempt from attachment under any decree or order of any Court in respect of any debt or liability incurred by the depositors.

2. The other salient features of the two Schemes are:

(A) Scheme for income-tax payers

(1) The Scheme does not impose any obligation on the employer to make any deductions on account of compulsory deposits from the monthly salary paid by him to his employees who are subject to income-tax. The assessees themselves will be responsible for depositing the amounts under the Scheme at the deposit offices of their choice any time during the course of the financial year but not more than once a month. The deposit offices will issue separate receipts for each deposit made with them and also show the deposit in the pass book. The depositors will be expected to make over these receipts to the Income-tax Department as proof of having made the compulsory deposit for claiming deduction from additional surcharge payable by them.

(2) It may be stated that in so far as Government employees or employees of public sector undertakings who are liable to payment of income-tax are concerned, the deductions will be made at source and these deductions will not be mixed with the compulsory deposits will not in any way enter the pay bills of the persons concerned.

(B) Scheme for employees

(1) This Scheme applies to employees of—

(a) Central and State Governments;

(b) Local Authorities;

(c) Companies, including foreign Companies and Government Companies;

(d) Corporations, including co-operative societies; and

(e) individuals, associations of persons or bodies of individuals liable to payment of income-tax and entitled to deduct the salary paid to their employees for purposes of computing their income;

whose annual income from salaries is Rs. 1,500 or above but who are not subject to income-tax.

(2) The Scheme imposes an obligation on the employer to make deductions of compulsory deposits at source at the time of payment of salary to their employees in all such cases. An exemption has, however, been allowed in the case of employees who will be contributing during the year a sum not less than eleven per cent. of their income from salaries in the form of life insurance premia, contribution to Provident Fund and deposits in the 10 and 15-year Cumulative Time Deposits with the Post Offices. In their case, no recovery of compulsory deposit will be enforced.

(3) The Head of Office shall obtain a declaration in writing from each of his employees who is otherwise liable for the payment of compulsory deposit, before the payment of his salary for the first time in the month of April of the amounts he would contribute as life insurance premia, Provident Fund subscription and deposits in the 10 and 15-year Cumulative Time Deposit accounts. For the year 1963-64, these declarations have to be made before the payment of salary in the month of July 1963. If the amount proposed to be paid by each such employee is not less than eleven per cent. of his annual income from salary for that year, no deduction for compulsory deposit shall be required to be made in respect of such employee for that year.

The Head of Office shall verify during the course of the year but not later than the date on which salary is paid in the last month of the year, whether the employee has paid the amounts according to his declaration. Where the amount so paid falls short of eleven per cent. of his annual income from salary for that year, the Head of Office shall deduct the full amount of the deposit payable for the year from the salary payable to the employee in the last month of that year.

(4) In all cases where the deposits have to be made, the Head of Office shall obtain an application from each of his employees, who is required under the Scheme to make a compulsory deposit, for opening an account with the deposit office, before drawing his salary for the month of June payable in

July 1963 or, in the case of a person who is transferred to his Office or who is a fresh recruit, and who has not already made any compulsory deposit, before the payment of his first monthly salary.

(5) The amount of deposit shall be 1 per cent. of the annual income from salaries. In the case of the current financial year, however, as the scheme is being introduced with effect from 1st July, 1963, the total amount of compulsory deposits payable for the year will be limited to 2½ per cent. of the annual income from salaries.

(6) The total amount payable for the year should be rounded to the nearest rupee and recovered in equal monthly instalments, provided the monthly recoveries also are made in whole rupees, the final adjustment being made in the deduction to be made from the salary for the month of February payable in March.

(7) As defined in section 3(e) of the Act, for purposes of this Scheme, the expression 'salary' has the same meaning as in section 17 of the Income-tax Act but does not include any gratuity or annuity or pension.

(8) Except in cases where it may otherwise be specifically authorised, the deductions on account of compulsory deposits shall not be shown in the pay bills but only in the acquittance rolls or office copies of the pay bills, where the latter are used for obtaining the quittance for the disbursement of the salaries. The deductions so made shall be listed out in a statement in Form F enclosed with the Scheme in duplicate or triplicate as may be required by the deposit office. The Head of Office shall arrange to deposit the deductions made by him on account of compulsory deposits with the deposit office within a period of 14 days of the disbursement of the salaries duly supported by the application forms in the case of first deposits and pass books for subsequent deposits and the schedule of deductions, one copy of which will be returned by the deposit office duly receipted.

(9) To avoid loss of interest to the depositor, all deductions made within a month should as far as possible be deposited with the deposit office within the same month. In the month of March, however, the Scheme requires the deposits to be made in that very month and not in the subsequent month, as otherwise repayment of deduction in the month of March would be postponed by another year.

(10) In cases where amounts for the disbursements of salaries are drawn on cheques issued by the Head of Office or by the Treasury Officer, as the case may be, the remittance of compulsory deposits into the deposit office may be made by cheques. For this purpose, the Treasury Officer can be asked to issue separate cheques representing the amount of the compulsory deposit deducted at source. In such cases also, the deductions will not be reflected in the pay bills except that the total amount of the pay bill will be drawn against two cheques.

(11) The pass books obtained from the deposit office shall be retained in the custody of the Head of Office, who shall verify that the recoveries made every month have been duly entered in the pass books. The pass books will also be open for inspection by the employees, for which suitable facilities may be provided.

(12) On the termination of employment, the pa book shall be handed over to the employee again receipt. Thereafter the Head of Office will in no w be concerned with all subsequent transactions i cluding the repayment of the deposits, which w have to be claimed directly from the deposit offi by the depositor himself.

In the case of transfer of an employee to anoth Office, the Head of Office shall arrange for t transfer of the pass book along with the transf documents of the employee to the office to which is transferred. An acknowledgement may be obtain from the new Office and placed on record.

(13) The Head of Office shall also arrange to mak available the pass book to the depositor to enab him to claim any repayment of the deposit from t deposit office, to which he may be entitled und the Scheme.

(14) The Head of Office shall be personall responsible for the deductions on account of com pulsory deposits and for their prompt remittance t the deposit office and for the correctness of th amounts deposited. The records relating to the transactions will have to be made available to aud as and when required.

(15) In the case of employees who draw the own salary bills, the deposit will have to be mad by the employees themselves every month in th deposit offices. The pass books issued by the depos office will be retained by such employees but wi be required to be produced for inspection of th Head of Office, who shall be responsible to veri that the deposits were being made regularly an correctly. For this purpose the Head of Office sha maintain a register in the form as in the annexu to this note.

3. The above instructions shall apply *mutat mutandis* to all public sector enterprises under th control of the administrative Ministries.
